

Mohamed Alamir Ali

OPERATIONS EXECUTIVE

+971 55 379 6104 | mo.alamir52@gmail.com | Dubai, UAE

PROFESSIONAL SUMMARY

Operations professional with over 10 years across rental operations, administration, accounting, and customer service. Currently manage daily operations for a Dubai car rental company running a fleet of 1,300+ vehicles, and designed and built its in-house YELO platform (React + Firebase) — a multi-module system covering fleet status, bookings and contracts, financial management, staff administration, and maintenance. Strong in ERP and CRM systems, financial controls, and turning manual spreadsheet workflows into working software that removes human error. Fluent in Arabic and English.

PROFESSIONAL EXPERIENCE

Operations Executive

Dec 2024 – Present

Yelo Rent A Car — Dubai, UAE

- Manage daily rental operations for a fleet of **1,300+ vehicles** across daily, monthly, and long-term contracts, serving individual customers, corporate accounts, and leasing companies.
- Own the administrative and financial function: rental agreements, customer records, automated invoicing, and reconciliation of Salik tolls, traffic fines, and parking charges.
- Track fleet availability and utilisation against live vehicle status, reducing idle days and preventing double-booking across a high-volume fleet.
- Coordinate the full maintenance cycle — service scheduling, workshop follow-up, and registration and insurance renewals — keeping vehicles road-legal and revenue-generating.
- Manage the operational partnership with **Invigo**, covering vehicle supply, subscription handovers, and account reconciliation.
- Designed and built the **YELO management platform** and own it end to end — requirements, development, deployment, and team rollout.

Branch Accountant

Jun 2022 – Dec 2024

Carrefour — Egypt

- Managed branch financial records, ensuring accuracy and compliance with company policies.
- Processed invoices, tracked expenses, and prepared financial reports.
- Conducted inventory audits and reconciled discrepancies in stock records.
- Collaborated with sales and operations teams to streamline financial workflows.
- Ensured timely submission of tax and financial statements.

Cash and Accounting Supervisor

Aug 2019 – May 2022

Abdullah Al-Othaim Markets — Egypt

- Managed customer support operations, improving response time by 30%.
- Oversaw daily cash operations and ensured accurate cash flow management.
- Balanced cash registers and generated reports for credit and debit sales.
- Processed refunds and exchanges and resolved customer complaints.

Head Cashier

Apr 2016 – Jul 2019

Carrefour — Egypt

- Delivered front-line customer service at checkout, processing payments and issuing receipts.
- Resolved customer complaints and handled credit and debit transaction issues.

Telecom Egypt

- Handled high volumes of inbound and outbound calls, identifying customer needs and resolving issues.
- Sold SIM cards and handled complaints regarding company products and services.

PROJECTS

YELO Platform – Car Rental Management System

2025 – Present

React • Firebase Authentication • Internal admin system

- Built and deployed a multi-module platform covering the whole business: fleet inventory and live vehicle status, bookings and contracts, financial management and invoicing, staff administration, maintenance tracking, and Invygo partner reconciliation.
- Automated invoice and report generation from operational inputs, removing manual calculation and effectively eliminating human error in billing and data entry.
- Raised fleet utilisation by surfacing true vehicle status in real time, so available cars are identified immediately and maintenance is tracked continuously rather than reactively.
- Replaced spreadsheet-based tracking across a 1,300+ vehicle operation with a single source of truth, secured with Firebase Authentication and role-based access.
- *Internal management system – access restricted because it holds confidential customer and employee data. A guided walkthrough is available on request.*

KEY ACHIEVEMENTS

- Selected among the **Top 5 employees at Yelo Rent A Car, UAE.**
- Built and launched the YELO management platform, digitising a 1,300+ vehicle rental operation previously tracked manually on spreadsheets.
- Automated invoicing and reporting, effectively eliminating human error in billing and improving fleet utilisation through real-time vehicle status.
- Recognised among the Top 10 employees in the region at Abdullah Al-Othaim Markets.
- Trained and mentored new team members, contributing to a 15% improvement in team performance metrics.
