

Mohamed Almir Ali

OPERATIONS EXECUTIVE

+971 55 379 6104 | mo.alamir52@gmail.com | Dubai, UAE

PROFESSIONAL SUMMARY

Operations and customer service professional with over 10 years in high-volume retail and rental environments. Currently manage daily operations for a Dubai car rental company running a fleet of 1,300+ vehicles, and designed and built its in-house YELO platform (React + Firebase) — a multi-module system covering fleet status, bookings and contracts, invoicing, staff administration, and maintenance. Strong in ERP and CRM systems, contract and process control, and turning manual spreadsheet workflows into working software that removes human error — including applying AI tools to automate reporting and document work across Excel and Word. Fluent in Arabic and English, with a record of building strong client relationships and being recognised for performance at every employer.

PROFESSIONAL EXPERIENCE

Operations Executive

Dec 2024 – Present

Yelo Rent A Car — Dubai, UAE

- Manage daily rental operations for a fleet of **1,300+ vehicles** across daily, monthly, and long-term contracts, serving individual customers, corporate accounts, and leasing companies.
- Own rental administration end to end: rental agreements, RTA registrations, customer records, automated invoicing, and reconciliation of Salik tolls, traffic fines, and parking charges.
- Track fleet availability and utilisation against live vehicle status, reducing idle days and preventing double-booking across a high-volume fleet.
- Coordinate the full maintenance cycle — service scheduling, workshop follow-up, and registration and insurance renewals — keeping vehicles road-legal and revenue-generating.
- Manage the operational partnership with **Invygo**, covering vehicle supply, subscription handovers, and account reconciliation.
- Designed and built the **YELO management platform** and own it end to end — requirements, development, deployment, and team rollout.

Cashier Manager

2020 – Nov 2024

Abdullah Al-Othaim Markets — Cairo, Egypt

- Led the cashier team across a high-traffic store, owning daily cash operations, shift coverage, and end-of-day reconciliation.
- Built a customer support knowledge base that cut support tickets by 25% and improved response time by 30%.
- Balanced registers and produced daily credit and debit sales reporting for management.
- Handled refunds, exchanges, and escalated complaints, protecting customer relationships at the point of sale.
- Applied cross-selling and up-selling at checkout, contributing to a 25% increase in customer retention.
- Trained and mentored new cashiers, raising team performance metrics by 15%.

Senior Customer Service Officer

2016 – 2020

Telecom Egypt — Cairo, Egypt

- Handled high volumes of inbound and outbound calls, identifying customer needs and owning each issue through to resolution.
- Sold SIM lines and mobile plans, and resolved complaints on company products and services.
- Coordinated meetings and supported senior management, maintaining compliance with company policy in a fast-paced call centre environment.
- Mentored junior agents on call handling and escalation, raising first-contact resolution across the team.

- Progressed from cashier to supervising the front area of one of Egypt's largest retail chains, covering checkout, customer service, and returns.
- Supervised cashier shifts and float handling, keeping tills accurate and queues moving during peak trading.
- Resolved escalated customer complaints at the front line and maintained store procedures for coupons, gift cards, and exchanges.
- Trained new cashiers on point-of-sale systems, cash handling, and customer service standards.

PROJECTS

YELO Platform – Car Rental Management System

2025 – Present

- Built and deployed a multi-module platform covering the whole business: fleet inventory and live vehicle status, bookings and contracts, financial management and invoicing, staff administration, maintenance tracking, and Invygo partner reconciliation.
- Automated invoice and report generation from operational inputs, removing manual calculation and effectively eliminating human error in billing and data entry.
- Raised fleet utilisation by surfacing true vehicle status in real time, so available cars are identified immediately and maintenance is tracked continuously rather than reactively.
- Replaced spreadsheet-based tracking across a 1,300+ vehicle operation with a single source of truth, secured with Firebase Authentication and role-based access.
- *Internal management system – access restricted because it holds confidential customer and employee data. A guided walkthrough is available on request.*

KEY ACHIEVEMENTS

- Selected among the **Top 5 employees at Yelo Rent A Car, UAE.**
- Built and launched the YELO management platform, digitising a 1,300+ vehicle rental operation previously tracked manually on spreadsheets.
- Automated invoicing and reporting, effectively eliminating human error in billing and improving fleet utilisation through real-time vehicle status.
- Recognised among the Top 10 employees in the Cairo region at Abdullah Al-Othaim Markets.
- Increased customer retention by 25% through cross-selling and strong client relationships.
- Trained and mentored new team members, contributing to a 15% improvement in team performance metrics.
